

Sara Arellano Blázquez

Senior Frontend Engineer · AI-Focused Software Engineer

Seville, Spain (Remote) | sararellano@gmail.com | +34 663 17 63 44 | [linkedin.com/in/sararellano](https://www.linkedin.com/in/sararellano) | github.com/Sararellano | <https://sararellano.github.io/sararellano>

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 8+ years of experience building scalable digital products, design systems and high-performance web applications. Background in Advertising & PR combined with specialized frontend and digital marketing training, allowing me to bridge technical implementation with business strategy and user needs. Strong JavaScript foundations enabling rapid adoption of any framework; hands-on experience with React and Next.js (TypeScript) through personal AI-powered projects. I integrate AI (Claude API, OpenAI API) into real-world workflows to automate processes, generate content and scale operations at speed.

TECHNICAL SKILLS

Frontend: JavaScript ES6+, TypeScript, HTML5, CSS3/SCSS, Tailwind CSS, Alpine.js, React, Next.js, Vue.js, Angular, Twig/Blade, Atomic Design, BEM

Backend & Full-Stack: PHP 8+, Laravel 12, Drupal 10, Python, Node.js, REST APIs, MySQL, Composer

AI & Automation: Claude API, OpenAI API, Prompt Engineering, LLM Integration, Workflow Automation, Data Pipelines, RAG

Design & Management: Figma, Jira, Basecamp, Trello, Notion

DevOps & Quality: Git/GitHub, GitHub Actions, Docker, PHPStan, PHPUnit, Sentry, Datadog, CI/CD, Core Web Vitals

KEY ACHIEVEMENTS

- Raised PageSpeed from 57 to 100 on strategic high-traffic websites through CLS optimisation and Core Web Vitals.
- Frontend lead for an internal CMS platform serving 80+ live websites and 50+ departments.
- Built and maintained a modular Design System (Atomic Design + BEM) adopted across all product teams.
- Automated mass template updates with Python scripts, eliminating thousands of hours of manual work.
- Mentored 5 junior developers; maintained Lighthouse scores above 90 consistently across all projects.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer · Selectra Oct 2019 – June 2026

- Led frontend development of an internal CMS platform with 80+ websites and 50+ departments in production.
- Designed and maintained a modular Design System with Atomic Design and BEM, adopted by all product teams.
- Led a CLS optimisation project that raised PageSpeed scores from 57 to 100 on strategic websites.
- Built Python scripts to automate mass updates of thousands of templates, removing repetitive manual work.
- Developed custom Drupal modules using PHP 8.3 and Drupal 10, integrated with Laravel 12 in a full-stack architecture.
- Integrated AI-powered workflows using Claude API and OpenAI API connected to external data providers.
- Collaborated with design teams using Figma to implement pixel-perfect interfaces from mockups.
- Managed sprint planning and backlog with Jira, Basecamp and Trello in agile cross-functional teams.
- Worked with MySQL databases for queries and data maintenance across full-stack projects.
- Set up pre-commit quality gates and CI/CD pipelines using GitHub Actions and Docker.
- Maintained Lighthouse scores above 90 with continuous monitoring via Datadog and Sentry.

Stack & Tools: Drupal 10, PHP 8.3, Laravel 12, JavaScript ES6+, TypeScript, Python, Twig, Tailwind CSS, MySQL, Figma, Jira, Basecamp, Trello, GitHub Actions, Docker, Claude API, Datadog, Sentry, React, Next.js, OpenAI, Claude API, Prompt Engineering, LLM Integration, Workflow Automation, Data Pipelines, RAG

Frontend Developer · Waavi 2017 – 2019

- Developed responsive websites and landing pages for international clients using React and JavaScript.
- Built conversational interfaces and integrated chatbots using Google DialogFlow.
- Worked in Scrum agile teams collaborating with design, business and development disciplines.

Stack & Tools: React, Node.js, JavaScript, SASS/CSS3, DialogFlow

Account Manager & Digital Project Manager · Waavi 2018 – 2019

- Managed client relationships and digital projects end-to-end, from briefing through to delivery.
- Translated business requirements into actionable technical tasks for the development team.

- Coordinated communication between stakeholders and technical teams across mid-size web projects.

Community Manager & Events Coordinator · SeRueda 2013 – 2016

- Managed online community and social media channels for a specialist roller skate shop, growing followers and engagement.
- Organised and coordinated in-person events to promote urban skating, attracting new customers and brand awareness.
- Combined physical retail management with digital marketing strategy and community activation.

PROJECTS & PORTFOLIO

AI Job Agent – AI-Powered CV & Cover Letter Generator (*in development*)

Full-stack SaaS application built with Next.js (App Router) and TypeScript that generates a tailored CV and cover letter from a job posting URL or description. Uses React components for a dynamic UI and integrates Claude API and OpenAI API with advanced prompt engineering to analyse the offer, match the candidate's profile to the company's language and produce documents ready to send.

Stack: Next.js, React, TypeScript, Claude API, OpenAI API, Prompt Engineering, Vercel | ai-job-agent-chi.vercel.app

V16 Emergency Beacon Interactive Map – Spain

Web application to visualise in real time the location of all active V16 emergency beacons across Spain. Mobile-first responsive UI optimised for use in roadside emergency situations.

Stack: JavaScript, Leaflet.js / Mapbox, REST API, HTML5, CSS3 | <https://balizas-v16-pink.vercel.app/> | *Link en Tiny Tool*

Town: <https://www.tinytooltown.com/tools/balizasspain/>

Personal Historian – AI-Powered Personal Biography Builder

AI-guided journaling app that turns daily memories into a meaningful personal biography through one thoughtful question per day. Private by design, with AI generating contextual follow-up questions tailored to each user's evolving story over time.

Stack: Next.js, React, TypeScript, Claude API, Vercel | ai-personal-historian.vercel.app

EDUCATION

Bachelor's Degree in Advertising and Public Relations · Universidad Rey Juan Carlos I, Madrid 2007 – 2013

Master's Degree in Digital Marketing · EOI – Escuela de Organización Industrial 2016

Master's Degree in Frontend Development · Generation Spain + McKinsey & Company 2017

Frontend Development Course · Universitas Telefónica 2018

ADDITIONAL TRAINING & CERTIFICATIONS

- React, Angular, Vue.js, JavaScript Expert Level, MySQL – Udemy
- AI Product Development & LLM Applications – Building real-world products with large language models
- Advanced Frontend Development – JavaScript ES6+, TypeScript, React Fundamentals
- CI/CD Workflows – GitHub Actions, Docker, DevOps fundamentals
- Workflow Automation with AI and Data Pipelines

LANGUAGES

Spanish: Native **English:** B1/B2 – Upper Intermediate (fluent technical reading, professional written communication)
