PROFESSIONAL PROFILE

Senior Frontend Engineer with 8+ years of experience building scalable digital products, design systems, and high-performance web applications. I hold a degree in Advertising and Public Relations, complemented by specialised training in frontend development and digital marketing, which gives me a strong understanding of both technology and business and user needs. Strong foundations in vanilla JavaScript allow me to quickly adapt to new frameworks, with hands-on experience in React and Next.js (TypeScript) through AI-focused personal projects. Seven years of experience working with Drupal CMS. I use AI (Claude API, OpenAI API) in real-world workflows to automate processes, generate content, and scale operations.

TECHNICAL SKILLS

Frontend: JavaScript ES6+, TypeScript, HTML5, CSS3/SCSS, Tailwind CSS, Alpine.js, React, Next.js, Vue.js, Angular, Twig/Blade, Atomic Design, BEM

Backend & Full-Stack: PHP 8+, Laravel 12, Drupal, Python, Node.js, REST APIs, MySQL, Composer

AI & Automation: Claude API, OpenAI API, Prompt Engineering, LLM Integration, Workflow Automation, Data Pipelines, RAG

CMS: Drupal, WordPress

Design & Project Management: Figma, Jira, Basecamp, Trello, Notion

DevOps & Quality: Git/GitHub, GitHub Actions, Azure DevOps, Docker, PHPStan, PHPUnit, Sentry, Datadog, CI/CD, Core Web Vitals

KEY ACHIEVEMENTS

- Improved PageSpeed scores from 57 to 100 on strategic websites through CLS and Core Web Vitals optimisation.
- Led frontend development for an internal CMS platform supporting 80+ active websites across 50+ departments.
- Built a modular Design System using Atomic Design and BEM, adopted by all product teams.
- Automated the bulk updating of thousands of templates with Python, eliminating significant manual work.
- Mentored 5 junior developers and consistently maintained Lighthouse scores above 90 across projects.

PROFESSIONAL EXPERIENCE

Senior Fullstack Developer · Izertis / Grupo ICA June 2026 – Present

- Lead development of a new website for a public-sector client, including Drupal 10 to Drupal 11 migrations.
- Mentor 2 junior developers, supporting them with programming and Drupal, and managing their tasks and pull requests.
- Develop custom modules in Drupal 11.
- Work with MySQL databases for queries and data migration.

Technologies & tools: Drupal 10 and 11, PHP 8.3, JavaScript ES6+, Twig, Tailwind CSS, MySQL, Figma, Atlassian, Azure DevOps, Docker

Senior Frontend Developer · Selectra Oct 2019 – June 2026

- Led frontend development for a Drupal-based CMS and internal framework supporting 80+ multilingual websites.
- Designed and maintained a modular Design System using Atomic Design and BEM, adopted by all product teams.
- Led a CLS optimisation project that increased PageSpeed scores from 57 to 100 on high-traffic websites.
- Developed Python automation scripts to update and manage thousands of templates at scale.
- Built custom Drupal modules using PHP 8.3 and Drupal 10/11, integrated with Laravel 12.
- Integrated AI-powered workflows using Claude API and OpenAI API together with external data providers.
- Worked closely with design teams in Figma to deliver pixel-perfect interfaces from mockups.
- Managed technical sprints and backlog using Jira, Basecamp, and Trello in cross-functional agile teams.
- Worked with MySQL databases for queries and data maintenance across full-stack projects.
- Implemented pre-commit quality checks and CI/CD pipelines using GitHub Actions and Docker.
- Maintained Lighthouse scores above 90 through continuous monitoring with Datadog and Sentry.

Technologies & tools: Drupal 10 and 11, PHP 8.3, Laravel 12, JavaScript ES6+, TypeScript, Python, Twig, Tailwind CSS, MySQL, Figma, Jira and Trello (Atlassian), Basecamp, GitHub Actions, Docker, Claude API, Datadog, Sentry

Frontend Developer · Waavi 2017 – 2018

- Developed responsive websites and landing pages for international clients using React and JavaScript.

- Built conversational interfaces and integrated chatbots using Dialogflow (Google).
- Collaborated in agile (Scrum) environments with multidisciplinary design, business, and development teams.

Technologies & tools: React, Node.js, JavaScript, SASS/CSS3, Dialogflow

Account Manager & Digital Project Manager · Waavi 2018 – 2019

- Managed client relationships and end-to-end digital projects, from briefing through delivery.
- Translated business requirements into actionable technical tasks for development teams.
- Coordinated communication between stakeholders and technical teams across web projects.

Community Manager & Events Coordinator · SeRueda 2014 – 2016

- Managed the online community and social media channels for a specialist skate shop, growing its follower base and engagement.
- Organised and coordinated in-person events to promote urban sports and attract new customers.
- Combined physical retail management with digital marketing strategy and community engagement.

PROJECTS & PORTFOLIO

AI Job Agent – AI-Powered CV & Cover Letter Generator · In development

- Full-stack SaaS application built with Next.js (App Router) and TypeScript that generates tailored CVs and cover letters from a job posting URL or description.
- Uses React components for a dynamic UI and integrates Claude API and OpenAI API with advanced prompt engineering to analyse job offers, adapt candidate profiles to company language, and produce ready-to-send documents.

Stack: Next.js, React, TypeScript, Claude API, OpenAI API, Prompt Engineering, Vercel

Interactive V16 Emergency Beacon Map – Spain ·

- Web application for real-time visualisation of all active V16 emergency beacons in Spain. Responsive UI optimised for mobile use in road emergencies.

Stack: JavaScript, Leaflet.js / Mapbox, REST API, HTML5, CSS3 | <https://balizas-v16-pink.vercel.app/>

EDUCATION

Degree in Advertising and Public Relations · Universidad Rey Juan Carlos I · 2007 – 2013

Master's Degree in Digital Marketing · EOI – Escuela de Organización Industrial · 2015

Frontend Programming Master's Programme · Generation Spain + McKinsey & Company · 2016

Frontend Programming Course · Universitas Telefónica · 2018

ADDITIONAL TRAINING & CERTIFICATIONS

- Various Drupal courses
- React, Angular, Vue.js, Advanced JavaScript, MySQL – Udemy
- AI Product Development & LLM Applications – integrating LLMs into real-world products
- Advanced Frontend Development – JavaScript ES6+, TypeScript, React Fundamentals
- CI/CD Workflows – GitHub Actions, Docker, DevOps fundamentals
- AI Workflow Automation & Data Pipelines

LANGUAGES

Spanish: Native | English: B2 – Upper Intermediate (fluent technical reading and professional written communication)
