- Frontend Development
- JavaScript Advanced
- React Fundamentals
- CI/CD Workflows
- AI Product Development
- LLM Applications & Automation

PROFESSIONAL PROFILE

Senior Frontend Engineer with 8+ years of experience building scalable digital products, design systems, and high-performance web applications. Strong background in JavaScript, PHP, Drupal and Laravel. Passionate about Core Web Vitals optimization, AI-powered automation, and crafting intuitive user experiences. Experienced in mentoring teams and collaborating across engineering, product, SEO, and business stakeholders.

KEY ACHIEVEMENTS

57→100
PageSpeed score on strategic websites

80+
Websites powered by the internal CMS platform

5
Junior developers mentored & onboarded

+90
Lighthouse score maintained across all projects

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Oct 2019 - Present

Selectra

- I worked on the frontend development for an internal CMS platform supporting 80+ websites and 50+ business departments.
- Designed and maintained a Design System built on Atomic Design principles, used across multiple projects.
- Spearheaded a CLS optimization initiative that raised Google PageSpeed scores from 57 to 100.
- Built Python automation scripts to update and maintain thousands of templates at scale.
- Developed custom Drupal modules and frontend features using PHP 8.3 and Drupal 10.
- Integrated AI-powered workflows using Claude API and external data providers for content enrichment.
- Introduced Git pre-commit quality controls to prevent visual regressions across the codebase.
- Sustained Lighthouse scores above 90 across all owned projects.
